ABHISHEK KUMAR

Lead Frontend Engineer | React, Next.js & Frontend Architecture

Email: abhishekkr1993@gmail.com | **Location:** India | **LinkedIn**: linkedin.com/in/abhishekr1993/

Lead Frontend Engineer with nearly eight years of experience building scalable, high-performance applications using React, Next.js, and TypeScript. Experienced in frontend architecture, performance optimization, reusable component systems, complex API-driven platforms, and technical delivery. Proven ability to lead technical decisions, mentor engineers, and collaborate across product and backend teams. Also experienced in human-led AI-assisted engineering and agentic development workflows.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
- **Architecture & State:** Redux Toolkit, Context API, Micro-Frontends, Component-Driven Architecture, Frontend System Design
- **APIs & Backend:** REST APIs, GraphQL, Node.js, JWT Authentication
- **Testing & Quality:** Jest, React Testing Library, SonarQube, WCAG 2.1 AA
- **Cloud & Delivery:** AWS S3, CloudFront, Lambda@Edge, CI/CD, Git, Bitbucket
- **Leadership & Practices:** Technical Planning, Code Reviews, Mentorship, Agile/Scrum, Cross-functional Collaboration
- **AI-Assisted Development:** GitHub Copilot, ChatGPT, Claude, Cursor

PROFESSIONAL EXPERIENCE

Lead Engineer | Kellton (formerly Tivix Inc.) | Gurgaon (Remote) | Jan 2025 – Present

- Lead the frontend architecture and development of the Sony LIV Bolt platform as part of a six-person engineering team, improving delivery speed by **25%**.
- Own technical decisions for feature implementation, balancing performance, scalability, maintainability, and delivery priorities.
- Reduced initial page-load time by **45%** through rendering optimization, code splitting, and improved data-fetching workflows.
- Lead implementation planning and code reviews across the frontend team, reinforcing maintainable architecture and consistent engineering quality.
- Act as the technical bridge between business and engineering teams and mentor 3 engineers to improve delivery quality and team effectiveness.
- Designed human-reviewed AI-assisted workflows for requirement analysis, code generation, PR reviews, quality checks, and test generation, reducing manual effort while maintaining production reliability.
- Increased automated test coverage by 10+ percentage points through AI-assisted test generation, refactoring, and manual validation.

Senior Software Engineer | Kellton (formerly Tivix Inc.) | Gurgaon (Remote) | Apr 2022 – Dec 2024

- Architected a schema-driven form system using React and TypeScript for **Sony LIV Bolt**, reducing feature-development time by **90%**.
- Delivered end-to-end UI features for **Nitro College** and **MSIL App** through robust API integrations, contributing to a **40%** improvement in user engagement.
- Modernized legacy code and Redux-based state management, improving application performance by **10%** and increasing maintainability.
- Implemented Microsoft Active Directory authentication workflows, reducing onboarding time by **25%** while strengthening access security.
- Increased automated test coverage by **35%** using Jest and React Testing Library, reducing post-release defects by approximately **15%**.
- Led WCAG 2.1 AA accessibility improvements using semantic HTML and ARIA standards.

Software Engineer | Leanpitch Technologies Pvt. Ltd. | Bengaluru | Nov 2018 – Mar 2022

- Built regional Next.js marketing platforms, including leanpitch.com and leanpitch.sg, and implemented location-based routing using Amazon CloudFront and Lambda@Edge to redirect Singapore visitors to the appropriate platform.
- Improved technical SEO across Next.js websites, achieving Lighthouse SEO scores **above 90** and contributing to a **25–30%** increase in organic traffic.
- Architected and deployed a scalable CMS that enabled nontechnical teams to manage content independently, reducing developer-supported content updates by **90–95%**.
- Integrated **Stripe** for leanpitch.sg and **Razorpay** for India-focused platforms, automating payment workflows and reducing related manual operations by **95%**.
- Led UI development for the Product Thinking Conference platform, improving the attendee experience and contributing to a **10** to **15%** increase in attendance.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** | Amazon Web Services | Valid through April 2027

EDUCATION

- **B. Tech in Electronics and Communication Engineering** | SRM University, Chennai | 2017
